

Mechanical Drawing Notes

Mirror Carrier: 450 x 320 x 8 mm aluminum plate, 4x 8 slotted holes [40 mm long].
Bond 20 mm deep ribs at rear for stiffness; maintain flatness ≤ 0.5 mm.

Elevation Bracket: 200 x 160 x 10 mm plate with central 25 pivot boss.
Add 45 gussets between base and side plates; provide grease channel.

Azimuth Base: 260 x 260 x 12 mm base ring with 220 clearance for slew bearing.
Anchor pattern 14 mm on 200 mm square bolt circle; integrate cable window.

Belt Guard: 220 x 120 x 2 mm folded cover, louvered ventilation each side.
Hinge on lower flange, tool-less fasteners on top inspection door.

Limit Switch Mount: 90 x 60 x 4 mm stainless plate with 6 x 25 mm slots.
Provide datum shoulder to align roller levers; include drip edge shield.
